

Smart watch

User manual

Open the package,
take out the watch

Wear the smart watch,
long press the button
to turn it on

Scan the QR code with your phone to open the APP 'FitCloudPro' on your phone to setup the device.

BUTTONS AND TOUCH

1. Long press to turn on the watch when off state.
2. In the power-on state, press and hold to display the shutdown page, and draw the right page to shut down.
3. Press once on the watch dial to enter the menu, and press the button twice in quick succession to switch the menu styles.
4. When on the other interfaces, press the button to return to the watch dial interface.

CHARGE AND ACTIVATE

Align the magnetic charger with the magnetic hole on the back of the watch until it reaches the watch screen. When the charging prompt appears, please charge the watch in time when the power is low. The backup is an all-in-one machine, and the rear shell and battery cannot be removed.

SMART WATCH APP DOWNLOAD AND CONNECTION

Scan the QR code above to download

1. Download the "FitCloudPro" APP on your mobile phone and install it. You can scan the QR code in this manual , or scan the QR code on your watch, or directly search for "FitCloudPro" in the APP mall to download.

2. Connect the smart watch

1) Scan the QR code to connect: After the mobile phone turns on the Bluetooth, enter the APP (Note: If the APP cannot be opened, please turn on the positioning of your phone and then open the APP) Click on the device -> Click on 'Add Device' -> Click on 'Scan QR Code Binding' (scan the QR code on the watch).

2) Manual connection: After the mobile phone turns on Bluetooth, enter the APP (Note: If the APP cannot be opened, please enable the mobile phone positioning function and then open the APP) Click 'Device' -> Click 'Add Device' -> Click 'Search

Device' (Find the corresponding item in "Settings" -> "System" -> "System Information" in the watch sliding control center Bluetooth name and MAC address of the device) -> Click 'Connect'.

3)Connect to Bluetooth call: In the initial state of the watch, the Bluetooth call is turned off, and the call and music functions cannot be used at this time. Slide down to open the 'Control Center', click the 'Headphone' icon, turn on the audio mode, and then turn on the Bluetooth call in the mobile phone system (when the mobile phone's Bluetooth is turned on/down), find the corresponding Bluetooth name, and click 'Connect'. After the connection is successful, the call and music functions can be used normally.

INSTRUCTIONS FOR USE

1. Dial interface: Long press the screen to enter the dial selection interface, swipe left or right to switch the dial, and click once after confirming the dial. (Note: The system presets 20+ watch dials, the last dial is "customize", this watch dial will change with the watch dial market updating of the APP port and the download settings of the custom watch dial).

2. Menu interface: On the dial interface, press the button on the side to enter the menu interface. After entering the menu interface, press the button twice in quick succession to enter the menu switching interface, and press it to return to the main interface.

3. Function interface: Click the application icon on the menu interface to enter the corresponding function interface, swipe right to return, and press the side button to return to the main watch dial interface.

FUNCTION INTRODUCTION

Alarm

After the smart watch is connected to the APP, you can set a single mode alarm clock, a cycle mode alarm clock, and a maximum of 5 alarm clocks.

Stopwatch

Click the start button to start timing, click the pause button to pause the timing, and click the reset button to reset the timing to zero. Up to 99 pieces of data can be saved.

Women's
health

After the device is connected to the APP, turn on the women's health reminder on the APP, and you can view the women's health reminder information on the watch.

Heart
rate

When entering the heart rate measurement interface, the bottom green light lights up to start the measurement, and there will be a vibration reminder when the measurement is completed in about 40 seconds. If it prompts "not wearing the watch", you need to re-wear the watch.

SPO2

When entering the blood oxygen measurement interface, the green light at the bottom lights up to start the test for 30~60 seconds, and there will be a vibration reminder when the measurement is completed. This measurement is a measurement based on PPG technology.

Message

After the device is connected to the APP, open the relevant message push on the APP port, the device port can receive the corresponding message push, and can save up to 15 recent messages.

Sports
