USER MANUAL

SMART WATCH

The product is water-resistant up to an IP67 rating, making it safe to wear during activities like handwashing or when caught in light rain.

Avoid using it during hot showers, baths, or in saunas, as the steam can penetrate the device and harm or deteriorate internal components. Such damages are not covered by the warranty.

Operation Guide
Long press to switch ON/OFF the watch. Press for wake the screen and off the screen.

Charging instruction
This product uses magnetic charging. Align the charging point with the device's charging pins on the back, and it will begin charging on its own. It's compatible with a PC USB or a standard 5V/1A charger.

Caution: Avoid allowing the two pins of the magnetic charging cable to touch a conductive material simultaneously, as this can lead to a short circuit.

Downloading the App

Scan the following QR code, download and install the App.

Scan QR Code and Download

FAQs

1. Why the watch cannot be found in the App?

A. When the Bluetooth on the watch is not found by the mobile
phone during a Bluetooth search, the Bluetooth on the watch is off. Please turn
on and off the Bluetooth on the watch and then on the
mobile phone and search and connect the Bluetooth again about
one minute later.

B. The GPS positioning function on the mobile phone must be turned on. In
"Setup" on the mobile phone using the Android operating system, be sure to
allow the App to obtain the positioning authority.

2. Why the watch cannot receive reminders?

A. Confirm the message push switch is turned on in the mobile app.

B. The confirmation message can be displayed normally in the
notification column of the mobile phone (you need to find the notification
settings in the mobile phone settings and turn on the notification switches of
 WeChat, QQ, phone, SMS and mobile phone clients);
Android settings: open app→ other settings→ auxiliary functions→ open app
IOS settings: Open: mobile phone settings→ notification→ WeChat , QQ, SMS,
 phone→ allow notification→ display in "Notification center"

C. Open: WeChat→ Me→ Settings→ New message notification→ Open
notification to display message details.

D. Open: QQ→ settings→ message notification→ open notification, display
message content.
